Compact Project - Under 15,000 SF
The central focus of the IDEA Awards is to provide an opportunity to share and celebrate our most successful design projects with our peers and to be inspired by the work of our fellow designers. We are showcasing the design skills and talent of those individuals right here, in the State of Indiana. In turn, recognizing these achievements helps achieve the IIDA Indiana mission to promote interior design as a profession that supports health, safety, and welfare to the general public.
Membership in the IIDA makes you a part of a community – one that provides vital education and networking opportunities – as well as access to industry-leading publications, tuition reimbursement opportunities, access to the IIDA Job Bank, and reduced fees for exciting Chapter CEUs, programs and events. IIDA Indiana advocates on behalf of Interior Designers, elevating the profession while providing business development opportunities that push your career potential to a higher level.

Whether you are a student, a project manager, an entrepreneur, or a retired designer, IIDA has the perfect membership package for you.

To become a member of IIDA Indiana, please visit the website of IIDA National.

For more information, please contact:
Jessica Bohac
Vice President of Membership

Huntsman Architectural Group
Join us in celebrating IIDA Indiana’s first **CARBON NEUTRAL** event! Every planning decision for the 2019 IDEA Awards included thoughtful dialogue and creativity to minimize waste and maximize sustainable practices. Additional credits were purchased through the Nature Conservancy to offset our carbon footprint for this event. When the environment is protected, the benefits are felt in every sector of our community for future generations. Our aim is to prove that reducing our environmental impact is attainable and necessary. We lead by example to set a new standard that sparks excitement about Indiana’s role in the environmental movement. Join us by doing your part at work, at home, and anywhere you travel to protect our beautiful planet. Thank you for your support!

Our entire carbon footprint of 8092 lbs of CO2 has been offset by donating to The Nature Conservancy to fund forest conservation and improved forest management. Our CO2 emissions have been compensated by removing and preventing the release of an equivalent amount of CO2 into the atmosphere thanks to our forests that absorb CO2.

**A special thank you to the following organizations for helping us reduce our environmental impact!**

- Random Acts of Flowers
- The Environmental Printing Company
- Second Helpings
- Sweet Peas Flower Farm
- Indiana Recycling Coalition
- Hoosier Environmental Council
- Earth Mama Compost
- The Nature Conservancy
