

Interior Designer

CSO Inc. currently has a position available for an Interior Designer with 5 years post-graduation, commercial design experience for our Education Studio. We are looking for a creative designer with well-rounded skills including; programming, space planning, construction documents and detailing, and finish specifications. Communication skills are important, as this position will include interaction with clients, contractors and consultants. A strong work ethic and ability to contribute in a collaborative team environment is essential.

Job Requirements:

Bachelor's Degree in Interior Design

Minimum 5 years post-graduation commercial design experience (Education focus preferred)

Refined design, presentation and organizational skills

Knowledge of furniture, finishes, materials and specifications

Experience coordinating with various disciplines including MEP, Structural and Food Service consultants

Applicants must be proficient in the use of 2D/3D software, including, Revit, AutoCAD, SketchUp and Photoshop, and have technical knowledge of construction documents across multiple disciplines. Familiarity with Lumion or other rendering software preferred.

LEED accreditation is a plus
