

**Interior Designer**

**3-5 years of experience**

Our Interior Designer is a dynamic team player who offers a positive attitude, creative design solutions, and a commitment to consistently exceed client expectations. This individual collaborates with a multi-disciplined team throughout the entire project's development to meet the needs of the client, while supporting project goals and schedules.

**Responsibilities:**

- Generates architectural concepts for interiors projects such as: furniture and equipment planning, special design concepts and requirements, floor plan analysis, condition of building site, personal property, integrated structural components, mechanical and electrical and visual design concepts, including material.
- Responsible to carry out these design assignments requiring the development of new or improved techniques or design.
- Normally works through the project to middle point of construction work, then required to follow up with construction team.
- Works with a senior-level designer on more complex projects.

**Qualifications:**

- Bachelor's Degree in Interior Design
- Certification as a licensed professional is preferred but not required.
- Three (3) to five (5) years of experience working in a professional office
- Proficiency in Revit and experience in AutoCAD
- Experience with SketchUp, InDesign, Enscape, and Photoshop with ability and willingness to learn new software

Position is full-time. Salary is generous, based upon experience and capabilities. Full benefits with health care insurance and 401K Plan available.

**Application:**
